1. **Graduation Requirements:**

Master's students must complete the required **24 credits** (excluding thesis credits), take required elective courses (including "Seminar"), and pass the master's thesis oral defense to meet the graduation qualifications.

2. **Departmental Course Requirements:**

Of the required **24 credits**, students must complete at least **12 credits** from the Department of Mechanical Engineering courses.

3. **Credit Transfer from External Courses:**

Graduate-level courses taken outside the department during the master's program may count toward up to **half** of the required graduation credits (excluding thesis credits), subject to the approval of the academic advisor and the department chair.

4. **Changing Specialization Groups:**

If a master's student needs to change their specialization group for special circumstances, they may apply to start from their second year.

5. **Course Selection Approval:**

The course selection list for master's students must be approved by their academic advisor or the department chair.

6. **Implementation and Revision:**

These regulations shall take effect after being approved by the Department Affairs Meeting. The same procedure applies to any future amendments.
